

20 years of industry experience for your OEM/ODM orders

30 engineers for your OEM/ODM projects

Established in 1992, we – Diasonic Technology – are trusted worldwide as a leading OEM/ODM supplier of A/V electronics. Our 30 R&D engineers, who are experienced in working with operating systems – particularly Linux, Google's Android and Microsoft's Windows CE – can easily render your specifications, no matter how complicated they may be. Plus, they continuously refresh our collection with new DVRs, LED desk lamps and audio recorders, as well as various other multimedia and surveillance devices.

In-house development and production

We carry out all of our processes in-house for quality consistency and to keep costs low. And utilizing our own R&D center, our engineers develop cutting-edge technologies to keep you abreast of the latest trends.

Products that meet international standards

We operate under an ISO 9001:2008-certified management system and our goods bear CE, FCC, VCCI, E-mark and RoHS marks for hassle-free distribution. Contact us now for more information.
